## SPECIAL NOTES BY MEMBERS OF THE STAFF.

*I.—Note by S. C. Mahalanabis, Esq., Professor of Biology, Presidency College, on the Development and further requirements of the Biological Department, at Presidency College.*

INTRODUCTORY.—It would be well-nigh impossible to advocate the claims of Biology too strongly. The educational value of nature study, even apart from the economic aspects of such sciences as Agricultural Botany, Entomology, etc., has received full recognition in the west. India—particularly Bengal—has been very slow to grant Biology its dues. This seems all the more unfortunate when it is remembered that India presents an inexhaustible field for research in Biology. But it is not too late to mend, and indeed, it is a matter of no mean consolation that the thin end of the wedge of “reform” is in, and the Presidency College has taken a step in the right direction.

The Biology Classes were opened, in the Presidency College, in September, 1900, with about half a dozen students; I presume more or less as an experiment. The number of students attending these classes has steadily increased, amounting, at present, to sixty-three. That the experiment has been very successful is proved not merely by the numerical strength of the classes, but more convincingly by the keen interest which the students take in these subjects; and indeed, “the eagerness to learn is, in many cases, quite touching.” It has been my constant endeavour to develop the Practical side of the teaching as fully as possible, but, unfortunately the accommodation and other necessary arrangements fall far short of adequate requirements for maintaining the reputation of the “Premier College of Bengal.” I shall, therefore, in what follows, briefly dwell on what I consider to be the most pressing demands of the Biological Department.

ACCOMMODATION.—The question of extending the College building—to relieve the present cramped and congested condition has been already raised, and I take this opportunity to point out that the condition of congestion has attained its maximum degree in the Biological Department. The small room (measuring 35'-6" by 25'-6") at present available, is used as a Laboratory, a Preparation Room and as well as a Practical Class Room. In this “multum in parvo” of a laboratory only twelve students can be accommodated for practical work; and even at that rate the same working benches have to be used for Practical Physiology, as well as, Practical Botany. Under these circumstances, only the B. Sc. students get instructions in Practical Physiology and Practical Botany. Whereas a large number of B. A. students do not get the opportunity of having a regular course of Practical training in these subjects. This is to be greatly regretted, for, without efficient means to give practical training all attempts to teach Science are bound to be futile.

Thus, even to meet the immediate needs of the Biological Department to a very moderate degree, the addition of a room measuring 70' x 26' fitted as a Practical Class Room is absolutely indispensable.

EQUIPMENT.—The question of adequate equipment is intimately connected with that of accommodation. The Biological Laboratory is fairly well equipped with apparatus and appliances for illustrating class lectures in Physiology. In this respect, the Botanical side requires much amplification. As for Practical Classes, considerable addition of laboratory fittings as well as appliances is very urgently required.

Judging from the present rate of growth of the Biological Classes I am convinced that, within the very near future the Biological Department will develop into just as important a department as that of Chemistry or Physics. We cannot lose sight of the fact that a reformed University is fast coming on us, and under the new order of things, it is presumed, the students of Biology in the more advanced stages will not be fettered by the compulsory subject of Mathematics. Besides as Physiology and Botany are going to be introduced in the Courses of study for the Matriculation Examination—there will be a growing demand in Schools for men qualified to teach these subjects. Such teachers will, presumably, be recruited from among the graduates in Science who profess Biology. In view of these changes calculated to place Biology on a broader basis, it is incumbent on us to see that the most recent and approved methods of Practical training in these branches of science are introduced in the Presidency College.

If we are to have anything like a modern Biological Laboratory worthy of the Presidency College we must have sufficient accommodation for two Lecture Rooms, a Preparation Room, a Practical Class Room, a Research and Advanced Students' Laboratory, a Room for Optical Work, a Galvanometer Room, a Professor's Room and a Museum. A detailed plan of these requirements will be submitted when the question of the extension of the College building has been decided upon.

**TEACHING STAFF.**—The teaching staff, in this department of the College, consisting of only one Professor and one Assistant, is obviously inadequate. "The Biological Department" is a misnomer. In fact, two different and very comprehensive subjects (viz :—Physiology and Botany) have been put together under the label "Biological Department." The courses of study are pretty long, and the Professor is hardly able to do full justice to them, specially on the Practical side. In my opinion, these subjects ought to be separated and placed under the charge of two Professors, besides, there ought to be at least one Demonstrator for each subject. I may add that no other University recognises courses of lectures on these two subjects when given by one Professor.

**ORIGINAL RESEARCH.**—I hold it nothing short of folly on the part of a Professor of Science to expect to be abreast of the times and to be able to inspire his students with new ideas unless he keeps himself cognisant of recent advances in Science—and devotes a good deal of his time to research work. It is also highly desirable that the more advanced students should receive an introduction to and an adequate training in methods of active enquiry which it will be their duty and glory to develop throughout later life.

If Original Research in Biology is to be encouraged at all, and there is not the slightest doubt that it should be, provision must be made for relieving the Professor of a portion of routine work so as to allow him more time to be devoted to Research Work.

In conclusion, I earnestly hope that the present enquiry instituted by the Calcutta University will lead to the much needed improvements in the Biological Department along the lines indicated above.

*II.—Note by J. A. Cunningham, Esq., Professor of Chemistry, Presidency College.*

1. There will doubtless continue to be statistics and "administration" whatever happens; but there will be little or no education done in a Government College until an

entirely new spirit enters into the whole system. We want less administration of the present red-tape order, and the whole tendency seems to be to make it more.

2. Presidency College requires to be entirely reorganised before it can be regarded as a really first-class University College in the ordinarily accepted meaning of that designation.

3. Its Principalship should be made such as to attract the ablest man of the Educational Service both in respect of pay and position.

4. Its professors should be allowed far greater scope in the independent development each of his own department.

(a) The first essential for such development to be a real possibility is that every professor should have a far greater security of tenure limited only by incapacity or bad behaviour. At present he is practically liable to summary ejectment at a few days' notice.

(b) Each professor should be consulted about the whole disposition of the work of his department. His advice should generally be accepted.

5. The staff of each department should be adequate to doing both professorial and tutorial work in their widest senses.

6. Even further than this, much of the teaching at Presidency College requires, ultimately, to be entirely changed. A professor of University rank ought not to be asked to attempt to give more than one course of elementary lectures to undergraduates. He should also give one course of advanced lectures to students who have passed through a sufficient course of instruction up to the B. A., or B. Sc., and were looking forward to higher University distinctions. These should only be conferred after a patient course of research work had been gone through by the student, and he had developed a certain power of original thought and independent judgment. This constitutes education. Having proved it in the one subject of his own special study, he will be able to display it in whatever walk of life he afterwards pursues.

7. A professor who can be trusted with the training of a couple of hundred students should also be entrusted with the spending of a few thousand rupees. The present system involves a most aggravating delay in the getting out of all apparatus and often means the obtaining of an instrument two years after it has been superseded by a better one in Europe. The progress of Science may also have to share the blame for this annoyance but we are unfortunately not able, at present, to exert any influence on the progress of Science from the Presidency College.

8. Whether the present system can be altered or not, a clerk, skilled in keeping accounts, should be attached to each laboratory. He might also act as store-keeper. At present a quite unjustifiable amount of the time and energy of expert teachers is given up to this kind of work.

9. The present *Chemical Laboratory* is quite incapable of dealing with the new courses of Calcutta University. Three different laboratories are required for the Intermediate, Bachelor and Post-graduates classes. Much improved lecture rooms are required. There is at present no proper accommodation for research students. The total space requires to be at least doubled. Our teaching staff alone is strong.

*III.—Note by J. N. Das Gupta, Esq., Professor of History and of English Literature, Presidency College.*

1. The arrangement recently introduced of holding essay-classes in the College seems to me to be a move entirely in the right direction. But for its successful working, the existing staff, I am afraid, is altogether inadequate. I find from my own experience that all that a Professor can under present circumstances hope to do, is to correct and return only a fraction of the Essays submitted to him while the system to be of any real benefit to the students requires that the individual needs of each should be attended to. This a Professor with his heavy lecturing work can never hope to do. I therefore venture to advocate the introduction of a set of assistants to the Professors on the literary side similar to the Demonstrators in the Physical Science and Chemical Departments to whom the more mechanical part of the work may be entrusted.

I have long felt strongly on the point for many reasons. The Arts subjects are all growing. Every English mail brings information of a vast amount of new work done in the field of literature, and of a vast store of new materials rendered available for examination in History and in Economics. A Professor of a College like the Presidency College to do justice to his position must keep himself in touch with these modern developments and in the interests of the College itself it seems to be desirable to transfer the work of looking over a huge collection of College exercises every week to a separate set of officers, leaving the Professors free to carry on their own investigations and studies during the few hours they may have at their disposal after the College lectures.

Again in some of our higher classes such as the M.A. History class we are making an effort to refer the students to original authorities and sources of information such as charters in English History and despatches and minutes in Indian History with the object of enabling our students to sift evidence and examine things for themselves. In course of our lectures, indeed, we can and do indicate the lines of work and proper methods of examination. But whether the students are actually working on the lines indicated and following out the suggestions made is not easy for us to ascertain. An assistant if available could be usefully asked to take charge of this branch of the work.

2. I wish to say one word about the need of tutors for our students. With our limited resources we cannot hope to have anything like the tutorial system which obtains at Oxford and Cambridge especially in the more perfected form in which it exists in a College like Balliol. But we may arrange to have a set of licensed tutors, whose help may be sought by that large class of our students who require and desire such help. The license may be granted by the Educational Department, or by each College, or even by the University. Guardians of students, men occupying high position in our society, men able and willing to undertake extra expenses for the proper education of their children, have often spoken to me on the subject, have enquired if I could recommend any proper person, or if it could be possible for me to undertake work of that description.

I have always hesitated to recommend any one, but no hesitation need be felt if a class of tutors properly licensed exist. This, it will be seen, will not entail any pecuniary responsibility on a College as the students would pay their own fees and make their own arrangements with the tutors they select.

3. It seems desirable that the College Library should be placed in charge of a member of the Teaching Staff, if for nothing else, to see that the books ordered are duly received and entered under their proper heads. I need only mention in this connection that books ordered so far back as 1902 have not yet been received and apparently nothing was being done in the matter till I called your attention to it a little while ago.

## Doveton College.

**Present  
Situation.—**

41, Free School Street, Calcutta.

**History.—**

This Institution was opened on the 1st of March, 1823. It was the first of a great movement which, after years of comparative indifference, led the Anglo-Indian population of Calcutta to determine on a scheme by means of which a good public school education might be secured for their children. A society was formed, subscriptions were raised, and under the name of "The Parental Academy" a school was established.

In 1855, a legacy of Rs. 2,33,000 was bequeathed to the Institution by the late Captain John Doveton, in the Nizam's Service, of Hyderabad, which enabled the then Committee of management to extend the sphere of usefulness by the addition, in 1857, of a College Department which was affiliated to the Calcutta University. In 1871, other bequests were made to the Institution by the late Mr. Lawrence Augustus de Souza of the firm of Messrs. Thomas de Souza & Sons of Calcutta. These consist, first, of the interest on a sum of Rs. 3,00,000 held in trust by the official Trustee of Bengal, and made permanently applicable to the maintenance and education of a certain number of boys of East Indian parentage who are admitted as boarders on the "Lawrence de Souza Foundation"; and, secondly, of the interest on a sum of Rs. 15,000 for the establishment of a scholarship in English Literature styled the "de Souza Scholarship."

For upwards of 80 years the Parental Academic Institution and Doveton College has abundantly fulfilled the design for which it was established. Its alumni are found in every department of the Public Service, and in independent spheres of usefulness.

**Constitution  
and  
Management—**

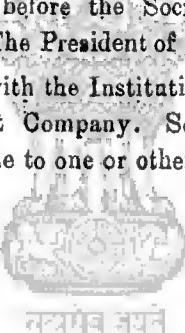

The Doveton College is managed by a Committee appointed under Rules (11 to 18 A) of the Society of the Parental Academic Institution and Doveton College, but there is not at present, and has not been since the 1st September, 1904, a regularly constituted Committee. The High Court of Calcutta is amending the Constitution and will form a Committee shortly. In the meantime the management has been in the hands of the Principal.

Under Rule 2 of the Rules of the Constitution, the Committee of Management act as Trustees of the Stock of the Society.

The Official Trustee of Bengal acts as Trustee of the de Souza monies.

There is no College Council. Neither the Rules of the Constitution nor the Bye-Laws have made provision for a College Council.

<b>Teaching Staff—</b>	A Principal, seven Professors and a Lecturer on French. There are no Pensions or Retiring allowances.
<b>College Buildings—</b>	No. 53 Park Street belongs to the College. It is let on a 21-year lease for Rs. 725 per month. The lease has still to run for 13 years.  No. 41, Free School Street in which the Institution has been located for nearly 70 years is rented. Monthly rent paid by the College is Rs. 400.
<b>Hostels—</b>	None. There is however a Boarding Department attached to the Institution and one of the College students is a boarder at present.
<b>Lodging Houses—</b>	None.
<b>Clubs and Societies—</b>	There is a Literary and Debating Society attached to the College. The members meet once a week when Literary, Political and Historical subjects are discussed. Selections from English authors are occasionally read by members before the Society. A <i>public</i> debate is also held at stated intervals. The President of the Society is Professor G. Lorimer, M.A.  In connection with the Institution there is also a Sports and Athletic Club and a Cadet Company. Some of the College students belong to both these, and some to one or other of them.

For want of funds there is no provision for periodical additions to the Library. The Library is therefore not up to date. Assistance for bringing the Library up to date is urgently needed. The College is not, and never was expected to be, self-supporting. It is an integral part of the whole Institution and works as a part of it.

## Duff College.

**Present  
Situation—**

74, Nimtollah Ghat Street.

**History.—**

Continuous in plan and purpose with the Institution founded by Alexander Duff as agent of the General Assembly of the Church of Scotland in 1830, and conducted first in Chitpore Road and from 1840 in Cornwallis Square. Its object being to combine religious with secular education.

The present Institution was opened in Nimtollah in 1843 by Dr. Duff with the original staff of the General Assembly's Institution, as an agency of the Free Church of Scotland. It has no other object in view than to contribute to the combined religious and secular instruction of the people.

It has been proposed that it should be removed to another part of the city, as Nimtollah has become for several reasons ill-suited for a Collegiate Establishment; but it is objected that a College and High School are much needed in this part of the town. It has also been proposed that it should be united with the original General Assembly's Institution to form one strong College; but it is objected that there is work for two Colleges, and that one could not do the work of two.

**Constitution  
and  
Management—**

The Management is by the General Assembly of the United Free Church of Scotland through its "Committee for Foreign Missions" meeting in Edinburgh, and subordinate to it, the "Bengal Mission Council of the U. F. C." meeting monthly or quarterly in Calcutta, and a Principal supported by a board known as the "Senatus" of the College.

The direct management is by the Principal and College Senatus. But the decisions of these are subject to the approval of the Bengal Mission Council, and the Home Committee of the General Assembly.

The College Senatus is composed of the Principal and the Professors appointed by the Home Committee.

The Bengal Mission Council is composed by the Senior Missionaries of the district and a certain number of local men of business nominated here and approved of by the Home Committee.

The College along with the other properties of the U. F. C. is in the hands of Trustees.

**Teaching Staff—**

Staff at present—Six European Professors appointed by the Home Committee of the General Assembly, of whom four are Missionaries of the Church and two are professional teachers—representing English, Philosophy, Mathematics and Chemistry, with part of History and 2nd Language; and five Indian Professors appointed locally by the Principal and Senatus—one for Physics, one for History, two for Sanskrit and one for Persian and Arabic.

Retention of Professors on the College Staff is dependent on their services being required and their ability to fulfil their duties satisfactorily in the judgment of the Managing bodies.

Indian Professors on retirement or withdrawal have a share of the proceeds of the Provident Fund, and on retiring from age or ill-health have a moral claim to such pension as the College can afford to pay them from its own income. No formal contract is made with regard to pensions.

European Missionaries in the service of the College have a claim to pension after 31 years' service from the resources of the Mission.

**College Buildings—**

The building and compound, 74 Nimtollah Ghat Street. Part of the building, 32-6 Beadon Street has been attached to the College as a Hostel for Christian Students. These buildings are the property of the United Free Church.

**Hostels—**

There are two Hostels.

- (1) The Hindu Hostel in the Duff College Premises.
- (2) The Christian Hostel—32-6 Beadon Street.

Fortyseven students are resident in the Hindu Hostel.

Four in the Christian Hostel.

One Professor is in charge of (1) and a Resident Superintendent in residence.

One Resident Professor is in charge of (2).

Arrangements for food in case of (1) are made by the Resident Superintendent; in case of (2) by the Students.

In case of (1) the fee (inclusive) is Rs. 12-8 a month.

In case of (2) the fee (exclusive of board) is Rs. 2-8 a month.

The Latrines are flushed with water.

**Lodging Houses—**

There are no lodging houses for students attached to the Duff College.

**Clubs and Societies—**

*Duff College Gymnastic Club*—difficulty in finding space for games—Marcus Square too far away and fully occupied otherwise—use of Beadon Square desired.

Gymnastic Apparatus in College Compound, removed for some time to leave room for tennis and football, about to be replaced.

*Duff College Dramatic Club*—in recent years successful representations of *As You Like It*, *Merchant Of Venice*, *Julius Cæsar*—at present *As You Like It*, in preparation.

## London Missionary Society's Institution.

**Present Situation —**

Bhowanipore, Calcutta.

**History —**

The Institution was founded in 1838, and in 1854 the present Buildings were erected. Affiliation to the University followed in 1857. The aim of the founders was to give higher education to natives of this country, and to impart religious instructions in all the College classes. It is still sought to carry out this aim and the teaching now conforms to the requirements of the Calcutta University.

The desire of the College Council is to bring the College up to the standard which may be required under the New Regulations.

**Constitution and Management —**

The final authority is vested in the Directorate of the London Missionary Society.

The College Council consists (i) of the European Professors sent out by the London Missionary Society, and appointed to work in the College by the local Committee of Missionaries, (ii) the Head Master of the School, and (iii) any Bengali Professors they may think fit to add to their number,—at present one such Bengali Professor is on the Council. As recently constituted the Council deals with all important matters of discipline, management, the appointment of Indian Professors, and the administration of funds. The Principal in his executive capacity is responsible in the first place to the College Council, and finally to the London Missionary Society.

**Teaching Staff —**

The College generally has the full time of two European Missionaries and half the time of another. There are also 5 Bengali Professors, *viz.*, 1 professor of English and Philosophy, 1 professor of Science and Mathematics, 1 professor of History and Mathematics, and 2 pundits.

In the past pensions have been given to Bengali Professors who have served the College for many years, but there are no fixed rules as to the giving of Pensions and Retiring Allowances.

**College Buildings —**

The College Buildings are the property of the London Missionary Society, who are responsible for upkeep and repairs. Thorough repairs are effected septennially.

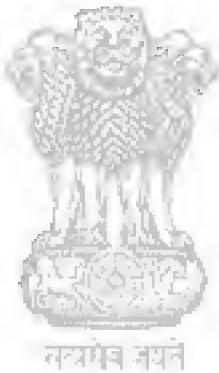

**Hostels —**

There is a hostel for Christian students but none for Hindus.

At present there are no College students in the Christian Hostel.

The Christian Hostel is under the management of the Principal with the Head Master of the School in direct charge.

	Food is provided, and terms are inclusive.
	The inclusive fee for College students is Rs. 8 a month.
	Sanitary arrangements are adequate, if the Municipality always carried out its work properly.
<b>Lodging Houses —</b>	None.
<b>Clubs and Societies —</b>	There are football and cricket clubs, and the boys compete for the Elliott Shield. We do what we can to encourage the students in their sports. There is at present no Debating or Literary Society. There have been such societies but they have been short-lived.

The apparatus etc. for the Laboratory is bought as it is required.

In the matter of College Furniture it is renewed according to requirement and the state of the College funds.

Additions are made to the Library at the discretion of the Principal and Librarian. In the first six months of this year more than Rs. 100 was spent in books and rebinding.

The Assistant Librarian receives Rs. 20 salary from the mission.

The financial condition this year is somewhat strained. The Society give us the services of the European Professors who work in the College and pay for the upkeep of the buildings, and we have to depend upon local funds for the rest. Last year a considerable degree of strictness was exercised in sending up candidates for the University Examinations. The consequence is that whilst we have a really good 1st year, the number of "failed" students in the 2nd year is less than usual. They will not join because they fear not being sent up. This is of course in some ways an advantage but affects our fees prejudicially, especially as we get our highest fees from "failed" students.

## Bishop's College.

**Present Situation—**

South of Calcutta, on the Ballygunge side of the Lower Circular Road, (224, Lower Circular Road).

**History—**

The College was founded by Bishop Middleton in 1820 at Sibpur on a site given by the Honourable East India Company. Its object was to teach Theology to Christian youths and to give a liberal education on the model of English Universities to all its students. Special stress was laid on Latin and Greek and the oriental languages. It was affiliated to the Calcutta University in 1860. In 1880 it was moved to its present situation. In 1893 the University classes were re-organised and the Home Committee granted the sum of £625 per annum to enable B. A. Classes (A course and B course) to be opened. The College is open to Christian students only. Hence its numbers have always been small. Besides the University classes there is also a Theological class. The residential system has been insisted on from the beginning and in spite of the cost carried out successfully. The College aims at giving to its students some thing of the college life of such a college as Keble College, Oxford. There is a school attached to the College in the same compound, but the College and School are kept distinct. We draw students from various parts of India and have always done so. At present we have students from Ceylon, Bombay Presidency, Central Provinces, United Provinces, Behar, Assam, as well as Bengal.

**Constitution and Management—**

The College Council consists of—

- The Principal.
- The Vice-Principal.
- The Senior Tutor.
- The Bursar.

The Principal is solely responsible to the Home Society, but consults the College Council on important matters connected with the work and management of the College. He is not bound to accept the decisions of the Council, but in practice usually does so.

The Bishop of Calcutta is Visitor of the College. The incorporated Society for the Propagation of the Gospel in Foreign Parts are its Trustees.

**Teaching Staff—**

The teaching staff at the present time consists of an Offg. Principal, a Senior Tutor (who are clergymen of the Church of England) and six Professors.

**College Buildings—**

The present site was bought in 1880 for Rs. 75,000 and the Principal's house for Rs. 51,000. In 1881 quarters for twelve students with dining room &c., were built for Rs. 20,000. In 1885 Library, Temporary Chapel and Tutors' quarters were built for Rs. 55,000. In 1886 more land and two small houses were bought for Rs. 16,400. As these were not found suitable for students new barracks were built in 1896 for 30 students for Rs. 37,300. In 1897 a special grant was voted by the Society at home for the erection of a Chapel which cost Rs. 37,500. Rs. 12,000 have been spent in acquiring bustee land just outside of the College for future development.

The College does not rent any houses and a grant of £75 per annum enables it to keep all the buildings in repair.

**Hostels—**

The hostel buildings are one single-storeyed barrack accommodating 12 students. One double-storeyed barrack accommodating 30 students. 35 out of a total of 38 University students are resident. The 3 not in residence live with their parents.

3 Theological students reside in the College Hostel and 2 other Theological students reside in the Oxford Mission Boarding School quarters across the road (the Ballygunge Circular Road).

The Hostel is under the management and constant supervision of the College authorities.

The students make their own arrangements for food. At present the Khansamah supplies the students with food on the contract system—the monthly mess fee ranging from Rs. 15 to Rs. 7-8.

The College charges a Hostel fee of Rs. 5.

The students pay the money due for the mess by the 15th of each month either to the mess-manager chosen from the students or to the Khansamah if he is acting, as at present, as mess-manager.

Each student has a room to himself. A bath-room is attached to each room as in Englishmen's houses.

**Clubs and Societies—**

**Literary Society**—Meetings on alternate Saturday evenings when a paper is read followed by a discussion.

**Choral Society**—For singing in unison and harmony meets once a fortnight.

**Ex-Students' Society**—For keeping ex-students in touch with the College and with one another. In connexion with this Society is a magazine published thrice a year.

**Athletic Club**--The College plays cricket, football, lawn tennis and hockey and enters for the two intercollegiate competitions in cricket and football. Students unless excused are expected to take part in the games.

**Drama**--The students act a portion of some play of Shakspeare in the Christmas term.

A student would be fined to some not very great amount who broke Rule 6, but it is probable that this rule is sometimes broken.

Rule 9 is observed.

Rule 10 is enforced.

## St. Xavier's College.

**Present Situation—**

10 and 11, Park Street, Calcutta.

**History—**

St. Xavier's College was established under the direction of the Society of Jesus, in January 1860, in the large building, No. 10, Park Street, formerly appropriated by the late Dr. Carew for St. John's College. Since 1868, the adjoining house, No. 11, Park Street, enlarged and improved, has formed part of the College. In 1862 the Institution was affiliated to the Calcutta University up to the B. A. standard. Its primary object is to give Catholic Youths a full course of liberal education and to train up their hearts to virtue. Pupils of other religious persuasions are also admitted on the same principle of non-interference as the Old St. Xavier's College which broke up in 1846. The College has an Infant Class, a Lower and Upper School Department averaging about 500 pupils, and a College Department with an average of between 300 and 400 students. A Solar Spectroscopic Observatory, a Meteorological Observatory, and Chemical and Physical Laboratories are attached to the College.

It is proposed to enlarge the accommodation of the College next year. The plans and estimates of the new extension have been submitted to Government and a building grant has been applied for. The new annexe will cost Rs. 48,000. This extension will, we hope, allow us to enlarge our Chemical Laboratory, to open out practical classes of Chemistry and Physics and to find more convenient accommodation for the students of our College Department.

**Constitution and Management—**

Conducted by the Jesuit Fathers under the management, of the Rector.

The Rector has an advisory board of Consultors.

The Councillors are :—

Rev. T. Vander Schueren, s.j., Prefect of Studies.

Rev. J. Vial, s.j., Prefect of Discipline.

Rev. H. Josson, s.j., Procurator.

Rev. C. Schellebroot, s.j.

The Rector is sole Manager. He asks the opinions of the Consultors in any matter of importance.

**Teaching Staff—**

There are fourteen Professors on the staff, of whom twelve are Jesuit Fathers.

The Professors are supplied by the Order and appointed by the Rector.

Two outside Native Professors are engaged on monthly salaries to teach Sanskrit and Arabic and Persian.

**College Buildings—**

10 and 11, Park Street. The buildings are private property.

**Hostels—**

63, Toltollah Lane is rented as a Hindu Hostel.

There are 10 Christian students of the College who have quarters as boarders in the College buildings.

Sixteen Hindus reside in the Hindu Hostel.

In the Hindu Hostel a Fourth-year student is Honorary Superintendent and calls the rolls at 7 A.M. and 9 P.M. After 9 P.M. no student is allowed in or out without signing his name in a register kept by the darwan. Both registers are submitted every week to the Prefect of Studies, who also visits the hostel at odd times. Mr. Abdur Rahman, Judge, who lives in the house opposite, is Honorary Visitor of the hostel and, as an old pupil of St. Xavier's, interests himself as regards the discipline of the hostel and the welfare of the students. Mr. Tipping, Superintendent, Students' Messes, visits the hostel occasionally. No student may be absent from the hostel at night without leave obtained from the Prefect in the form of a previous written application. All visitors to the students sign their names in a register kept by the darwan.

The students in this hostel make their own arrangements for food. The College supplies the cooking utensils.

The rent charged is for the upper floor, Rs. 4 per seat, for the lower floor Rs. 3.

The College pays Rs. 80 per mensem for house rent to the Superintendent, Students' Messes and Rs. 10 per mensem to the darwan.

The College recovers Rs. 62 from the students from 14 upper floor seats and 2 lower, having a deficit of Rs. 28 monthly.

The sanitary arrangements have been approved by the Superintendent, Students' Messes.

**Library—**

The Library of the College Department is a consulting library and contains works of reference. It consists of 2490 volumes. Books are lent to approved students.

Besides the College Department Library, there are 3 other libraries in the house from which books may be obtained. One of the members of the Staff is Librarian.

## PROSPECTUS.

*I.—Course of Education.*

1. The object of this Institution is to give Catholic youths a full course of liberal education, by training up their hearts to virtue and adorning their minds with every useful knowledge. Pupils of other religions persuasions are also admitted.

As Learning, without Education properly so called, would not answer the wishes of parents for the happiness of their children, unceasing care is taken to form the character of the pupils; to inspire them with a love of Religion and Morality; to accustom them to gentlemanly manners, to habits of cleanliness and order; in short, to prepare them for their various duties in after-life. They are under the constant supervision of their Masters.

2. The College has been affiliated to the University of Calcutta and comprises two sections: the School Department and the University Department. The course of studies embraces all subjects up to the standard of the M. A. Degree, *viz* :—

- (a) The English Language thoroughly studied, with frequent exercises of composition and elocution.
- (b) The Latin Language as far as it is required for the University Degrees, or for a thorough knowledge of English. The study of Latin is compulsory in the School Department, from the 4th Standard upwards.
- (c) French, Sanskrit, Persian, Bengali and Urdu.
- (d) History, sacred and profane; Geography, physical and commercial.
- (e) Arithmetic, Algebra, Geometry, Mensuration and Trigonometry.
- (f) Higher Mathematics, Mechanics, Astronomy, Physical Science, Chemistry, Geology, Mineralogy, Logic, Political Economy, Mental and Moral Philosophy.

A Museum of Specimens and Instruments to illustrate Natural Philosophy, Chemistry, &c., has been added to the University Department. Further donations will be gratefully accepted and inscribed with the name of the Donor.

3. Each section of the College has its own Library of useful and interesting books placed within the reach of the students. All other books for private reading must be submitted for approval.

4. There is no class on Thursdays, unless a holiday fall on the day immediately preceding or following. The University Department closes on all Government Holidays.

5. There is a vacation three times a year, *viz.*, the Summer Vacation, in May; the Autumnal Vacation, in September; and the Christmas Vacation. Absence from College at any other period is strongly objected to.

6. In the School Department, weekly reports will keep parents informed of the behaviour and diligence in study of their children. Reports on general progress are sent at the end of the first two terms. Previous to the Christmas Holidays, Medals and Prizes are given to the pupils who have distinguished themselves in the various departments of Literature and Science.

7. Pupils whose conduct is injurious to the moral tone of the school or incompatible with strict discipline are liable to be dismissed.
8. Before withdrawing a boy from the College, a month's notice is to be given.

#### SPECIAL RULES FOR BOARDERS.

1. Parents or guardians may visit their children on Sundays and Thursdays, from 11 to 2 o'clock. No visitors are admitted to see the boys without the express permission of the parents.

2. Boarders whose conduct has been satisfactory during the month are allowed to go home on the 1st Sunday of the month. They may leave the College at 7-30 A.M., and must be back before 8 P.M. If they have secured two first notes in the previous monthly proclamation, they will be allowed to leave the College on the Saturday preceding, after class.

They should, both on going and returning, be accompanied by their parents, or by some duly authorized person. If attended by a servant only, a note is required. At their return, they must report themselves to the Rector and to the Prefect of Discipline.

3. The authorities of the College reserve to themselves control of all the correspondence of the resident pupils.

4. The health of the boarders is entrusted to the care of an experienced physician.

#### SPECIAL RULES FOR DAY-SCHOLARS.

1. The hours of attendance in the School Department are from 9-30 A.M. to 3-30 P.M.; in the University Department from 10-30 A.M. to 3 P.M.

Scholars coming late must bring a note from their parents stating the cause of the delay. This note is given to the Prefect of Discipline. No leave of absence will be granted without a previous written application from the parents.

3. On their way to the College and on returning home, all are expected to behave in a gentlemanly manner. No one should wait for his conveyance at the gate of the College, but within.

## The Metropolitan Institution.

**Present Situation—**

22, Shankar Ghose's Lane.

**History—**

The Institution grew out of a School which was under the management of the late Pandit Iswara Chandra Vidyasagara. He developed it into a College. It was after repeated efforts that he succeeded in having it affiliated to the University. His object was to impart higher education to, and improve the worldly prospects of, young men who were unable or unwilling to avail themselves of the education given in Government and Missionary Colleges. He made it a principle to use only indigenous agency. He spent the income of the Institution on the Institution itself, and, whenever necessary, made grants towards its maintenance and equipment either from the surplus of the income of the School or from his own private resources. He endowed it with buildings, a Library and a Laboratory. Habitually and on principle he made concessions to poor students in the matter of fees, but never relaxed discipline or lowered the standard of efficiency. This was the first institution of its kind, that is, of the class of Unaided, Private, First-grade Colleges conducted altogether by indigenous agency.

Since the death of Pandit Iswara Chandra Vidyasagara in July 1891, the management of the College has changed hands more than once. Since the 1st September, 1896, it has, under an agreement with the Vidyasagara Institute, been vested in a Committee called the College Council.

In proof of the manner in which the College has been conducted it may be necessary to say that in particular years students of this College have headed the list of successful candidates in the F.A., B.A., M.A., and B.L. Examinations, and since the institution of Examinations for Honours, several have taken high places on the Honours List. With regard to the kind of men who have been selected for Professorships it may be necessary to say that on the staff there have been from time to time men who previously belonged to Government or other distinguished service, or who having served here have been subsequently appointed in important capacities in Government and aided Colleges.

**Constitution and Management—**

The College Council is the Managing Committee. It consists of the Principal, the Vice-Principal, Professor Golap Chandra Sarkar, Professor Kali Krishna Bhattacharyya, Professor Jnan Ranjan Banerjea, and Babu Braja Nath De, the Superintendent.

Appointments are permanent but not guaranteed. Professors are, however, liable to removal for inefficiency or unsuitability. There are no special conditions of tenure.

There are rules concerning pensions or retiring allowances. The College Council, however, may grant pensions in cases which they think fit. They did so in one recent case.

#### **College Buildings—**

The College has its own buildings. Under an agreement between the Vidyasagar Institute and Pandit Narayan Chandra Vidyaratna (son of the late Pandit Iswara Chandra Vidyasagar), the buildings will be taken over by the latter if the College ceases to exist as a First-grade College.

**Lodging  
Houses—**

There are 91 Students in 6 lodging houses.

Arrangements for licensing are made by the Government of Bengal.

In each house one of the senior boarders acts as resident Superintendent. The College authorities make inspections from time to time.

**Clubs and  
Societies—**

(1) The *Dawn Society*, an institution for the moral, religious and practical training of young men belonging to any College, has been allowed the free use of rooms and furniture on the College premises. Several students of this College are its members. A copy of its last Report is annexed.

(2) The College pays a subscription for the use by its students of the grounds of the Marcus Square Committee for games and sports.

(3) A debating Club and a Society called the Hindu Young Men's Union exist in connection with the College and hold meetings from time to time.

\*This consists almost entirely of the income of the Law Department, and occasionally of small balances of previous years if any.

The figures in column 8 show only the actual expenditure, but do not represent the entire cost of the Teaching Staff. (See under the Heading "Financial condition.")

There is no special provision for periodical renewal of apparatus, furniture, &c., in the shape of a separate fund, but apparatus, furniture, &c., are renewed whenever occasion arises.

There is no separate fund for periodical additions to the library, but additions made whenever occasion arises.

## FINANCIAL CONDITION.

Statement C has been filled up. It will be seen from that document that four Members of the College Council, namely Mr. N. N. Ghose (The Principal), Professor S. R. Ray (The Vice-Principal), Professor Golap Chandra Sarkar and Professor Kali Krishna Bhattacharyya, have had to bear a great loss. They have never been able to draw their full remuneration but have been content to divide, rateably among themselves, what remained after payment of all expenses; and even such amounts, always less than the full remuneration, they have not been able to draw regularly every month. The reasons of the deficit are mainly these,

(1) By the terms of their agreement with the Trustees, the College Council have to manage the College out of its own income alone. The income of the School, upon which the founder was able to draw to meet a College deficit, has not been at their service.

(2) The tuition fees (Rs. 3 for the F.A. Classes and Rs. 4 for the B.A. Classes) are small, but the cost of the establishment is heavy. A College-rate of expenditure has had to be met out of what is practically a school rate of fee. Tuition fees are the only source of income; and these, small as they are, are not paid at the full rate by all students. Several students are admitted at reduced rates in consequence of their poverty; and in accordance with old rules, Government scholars are admitted free. Pandit Vidyasagara's son nominates, under an agreement with the Trustees, ten free scholars. That plucked students pay for only half the year is another source of deficient income.

(3) Loss could have been greatly if not wholly avoided if the College Council had decided to reduce the strength of the staff, or to reduce their salaries, or to do both. In the interests of efficiency they have not thought fit to do so.

(4) This year there has been a marked falling off in the number of students, in consequence of a dread, among mofussil students, of the stringency of mess regulations in Calcutta and of the increased cost of living. The conditions of student life in the mofussil are easier, and hence many have elected not to come to Calcutta. This College has suffered particularly from the uncomfortable character of the houses selected for messes, and from the smallness of the accommodation in some of them, which has added to the cost of living per head.

There are no "definite proposals as to the future of the College" that are ready to be submitted. It seems, however, that if the College is to live as now on its own income alone, and if that income is to consist as now only of the tuition fees of students, its existence in a state of efficiency will depend only on the ability and the willingness of the four Members of the College Council already referred to to bear further losses.

A raising of the tuition fees or an insistence on the payment of the full rate of the present fees by all students, will lead not to an increase but a diminution of the income. There would be some improvement, however, if plucked students were made to pay for the whole year.

The loss sustained by the four Members of the College Council in the current year alone (commencing January) is in round numbers Rs. 5,000.

## Ripon College.

**Present Situa-  
tion—**

60, Mirzapur Street, Calcutta.

**History—**

Management of a high school, the Presidency School, established in 1880, passed in January, 1882, into the hands of Babu S. N. Banerjea, who raised the institution to the status of a Second-grade College, under the name "Presidency Institution," affiliated in January, 1884. The name was changed to "Ripon College" in December, 1884. Next year it was affiliated as a First-grade College with B.A. and B.L. classes. B. Course B.A. classes were opened in 1892.

The institution was founded with the object of meeting the educational requirements of students of all classes, Hindus and Muhammadans, at moderate and convenient rates of fees.

The institution at present consists of the General Department consisting of the collegiate arts classes and school classes, and the Law Department comprising of the B.L. and Pleadership classes. Besides there are the Gymnastic and Drawing classes, attendance at which is optional with students.

Babu Surendranath Banerjea, with whom the management lies at present, is willing to make suitable additions and alterations in the status and equipment of the College in accordance with the new Regulations of the University. Besides he has a mind to make it a public institution managed by a properly constituted body at some future date.

**Constitution  
and Manage-  
ment—**

The Management is private.

At the instance of the proprietor, Babu Surendranath Banerjea, a Council has recently been constituted with power to supervise the administration of the College and School classes in matters affecting instruction, discipline, the Library and the Laboratory. The Council has appointed a Committee of three members for drafting rules of procedure and business which will be submitted to the Council before the Puja Holidays.

The recently constituted College Council is the only Managing Committee and it consists of the following members :—

Babu S. N. Banerjea	... President.
Babu Ramendrasundar Trivedi	... Principal.
„ Janakinath Bhattacharyya	... Professor of English.

Babu Haranchandra Banerjea	...	Professor of Mathematics, Secretary.
„ Kshetramohan Banerjea	...	Professor of Mathematics.
„ Lalgopal Chakravarti	...	Professor of Philosophy.
„ Kalicharan Banerjea	...	Professor of Law.
„ Govindachandra Das	...	Professor of Law.
„ Purnachandra Goswami	...	Head Master.
„ Amritachandra Ghosh	...	Superintendent.

**Teaching Staff—**

Fifteen in number including the Principal and a Lecturer in Sanitary Science.

There are no special conditions governing the tenure of appointments and no pensions.

**College Buildings—**

The College Buildings are rented.

**Lodging Houses—**

There is no hostel, Government has rented several buildings in the neighbourhood of the College for accommodating students of this College. The College authorities have to realise seat-rents at a fixed rate from the students and make over the sum to Government.

The Houses and the Numbers of students resident in each are as under :—

\* In this reside students from other Colleges also.

The management at the "Messes" rests at present partly with Government, partly with the College authorities and partly with the resident students.

Government officers hold periodical inspections of the premises and are responsible for Sanitary arrangements. The College authorities are responsible for the realisation of seat-rent from students and for maintenance of discipline. The students are free to make their arrangements for food and appointment of servants; in this they are helped by the College authorities. In one case it has been found possible to appoint a resident Superintendent in the person of Babu Jitendralal Banerjea, M.A., one of the Professors of the College. In two other cases seven students have been appointed as monitors.

**Clubs and Societies—**

There is a Students' Debating Club which is managed entirely by students. Professors are occasionally invited to witness the proceedings.

## The Central College, Calcutta.

**Present Situation—**

**History—**

71-2, Cornwallis Street, Calcutta.

Founded as a Higher Class English School under the name, "University Institution" on the 2nd June, 1893; *recognised* by the University, within a month of its starting, under the altered name, "The Central Institution"; *affiliated* as a Second-grade College in June, 1894; and as a First-grade College in January, 1896, when its name was altered into the one it at present bears. Records of the University would shew that a number approaching 200 students have passed successfully the F.A. Examination during these years, and a larger number the Entrance; and among the many successful Graduates that this Institution has turned out, several have achieved the distinction of *Honours*. Even in the present year in which the Institution has been at a low ebb, numerically and financially, the percentage of B.A. successes in A Course, has not been lower than that of the more influential unaided Colleges in this city and that of several of the still more influential and better equipped Government Colleges in the Mofussil.

The Institution was founded to endeavour—(1) to provide an unaided College in this part of the city for students of moderate means and resources; (2) to give effect to the irresistible determination of its founder, who had spent the prime of his life in the service of the Pioneer Institution among the unaided Colleges of these Provinces, in the capacity of Professor of Mental and Moral Sciences and Logic, as also, of Officiating Principal, for a short time, to devote the remaining years of his life to the service of the same cause elsewhere in this city.

The Institution has been numerically at a low ebb in recent years on account of—(1) the failure of the management to provide a hostel or mess for its students; (2) the persistent rumour of its abolition since the publication of the report of the Universities Commission.

But these are preventible evils; and the Management is quite sanguine as to the possibilities and potentialities as an *Arts College*, the B. A. Science Classes of the College having already been abolished.

**Constitution  
and Manage-  
ment—**

The Central College is an unaided College managed principally by its Proprietor and Principal.

The management is private.

There is no College Council.

There is a Managing Committee, although it has not had its meetings for sometime. In pursuance of the Rules of Affiliation obtaining in 1895, a Committee of Management for the B. A. Classes of the College, was duly organized under a Constitution approved by the Syndicate of the University and maintained for the full stipulated period of five years. If necessary, this Committee may resume its sittings *pro forma* at any time. But as the University is to have henceforth an educational expert as the Inspector for the Colleges affiliated to it, the internal management of the College would be ensured all the more by a College Council consisting of three senior members of the Instructive staff especially as there is no public fund or endowment to administer in this Institution.

**Teaching Staff—**

A Principal and eight Professors.

There are no special conditions governing the tenure of office of Professors excepting the usual fortnight's previous notice for severance of connection with the College. Mr. C. H. Linton, however, has completely identified himself with the College; and there has been a pledging of words of honour on his side as well as on the side of the Proprietor of the Institution for the maintenance of a life-long business relation in the College.

There are no pensions or retiring allowances.

**College Buildings—**

A two-storeyed house for the College and the Collegiate School in three blocks of buildings, with doors and windows opening to the South, East and West; and a spacious court-yard as the common play-ground for School and College.

Rented at Rs. 250 a month, under a lease for three years, commencing from June last.

**Clubs and Societies—**

(1) "The Central College and Collegiate School Band of Hope" [a branch of "the Metropolitan Temperance and Purity Association."]

(2) Annual Recitation Day for School and College.

\* This was the first year in which candidates were sent up for the B. A. Examination from the Metropolitan Institution, since its affiliation to Degrees in Arts of the University in 1880.

† This year, a successful candidate from the Metropolitan Institution obtained highest marks in Inductive Logic, Dr. Hastic, late Principal of the General Assembly's Institution, being the Examiner in that subject.

‡ The classification of successful candidates into B.A. Pass and B. A. with Honours according to the standard of Examination passed, came into existence this year, and the Hon'ble the Vice-Chancellor of the University commenting on the results of the Examination in the course of his speech at the Annual Convocation, observed: "and the first division in Mental and Moral Science was monopolised by Mr. Jogendra Kumar Sinha of the Metropolitan Institution."

§ From the latter end of 1885 to 1891, the charge of a portion of the *Pass Course* (Moral Science) was in other hands and as no information is supplied by the Minutes of the University as to the percentage of successful candidates at the Examinations in Mental Science and Moral Science separately, the second and sixth columns in the above statement remain unfilled from 1886 to 1891; and only the aggregate number passed in Philosophy during each of these years from the two Colleges is inserted. Since 1885, out of 17 candidates sent up from the Metropolitan Institution, 13 passed with Honours in Philosophy, and 4 out of 5 obtained the Degree of Master of Arts in that subject.

No definite sum is allotted for periodical renewal of apparatus, furniture, &c., but the wants and requirements of the College are fairly met according to the resources of the Institution, as occasions arise.  
No definite provision is made for periodical additions to the Library but books are purchased every now and then, both on the Proprietor's own initiative and in pursuance of the orders of the members of the Instruction staff generally.  
The College is supported by tuition fees realised from other sources. Thus circumstanced, the Institution has been able to hold its own for a period exceeding eleven years, including plague seasons in this city and recent seasons of its economic depression induced by extraneous circumstances over which the management has no control.

The School for Hindu girls was founded in 1849 by the Hon'ble J. E. Drinkwater Bethune, after whose name it is called. The College Department was opened in 1879 and was affiliated in 1888. The object of the institution is to educate Indian girls.

*Note regarding the principal wants of the institution :—*

- (1) Anatomical charts and models for teaching the physiological parts of Psychology in the B. A. class as also the physiological parts of Sanitary Science in the F. A. class.
- (2) A good microscope for teaching Botany.
- (3) The want of a good harmonium and piano is very much felt in connection with our Music Class. The harmonium and the piano that we have are very old and have become quite useless. In fact at the time of the distribution of prizes we have to hire a piano and a harmonium every year which involves a recurring charge of about Rs. 25 annually. The old instruments we have, do not serve our purpose and the girls do not get proper lessons in music. It is therefore quite necessary to replace them.
- (4) We have no sporting gear. I think it very desirable to have some for our girls.
- (5) The Library should be enlarged and improved.
- (6) Accommodation for classes is quite insufficient and a Reading Room is wanting.

## Bangabasi College.

**Present Situation —**

25-1, Scott's Lane, Calcutta.

**History —**

Started in May, 1886, as an agricultural school to which, for financial reasons, was attached an Entrance School. The former department collapsed, the latter progressed and was affiliated in 1887 as a Second-grade College. In 1896 it was affiliated as a First-grade College.

**Constitution and Management—**

A proprietary Institution. There is a Committee which has never met as a committee, but whose members have been from time to time consulted.

There is no formal College Council, but in practice two Senior Professors with the Principal form a Council for the management of the Institution.

The original Committee consisted of the following gentlemen :—Raja Peary Mohan Mukerji, Babu Upendra Nath Mitra, Babu Golap Chandra Sarkar Sastri, Babu Syamadas Mukerji, Mr. S. P. Sinha, Babu Joges Chandra De, Mr. G. C. Bose.

**Teaching Staff—**

There are fifteen Professors on the College staff, including the Principal.

There are no special conditions governing the tenure of office of Professors generally.

As a matter of fact, except in two cases which occurred in 1896, Professors have kept their appointments until they themselves resigned.

There are no Pensions or Retiring Allowances.

**College Buildings —**

The premises No. 25-1, Scott's Lane, are the property of the Proprietor.

**Hostel —**

There is no hostel at the present time.

There was one, two or three years ago, but it occasioned a loss of about Rs. 1,000 in six months, and was therefore abandoned.

**Lodging Houses—**

The number of students in lodging houses i.e. in College Messes is 98.

These houses (six in number) are occupied under the new arrangements made by the Government of Bengal.

Two houses have regular Superintendents : in one case a teacher and in the other a graduate who is a law student. In the other four students

are told off to act as Superintendents. A College Professor superintends all six, and the staff inspect the messes regularly.

The sanitary arrangements are made by our landlord the Government of Bengal.

**Clubs and Societies—**

The classes hold their own Debating Clubs and the Professors help, if asked to.

There has been a Football Club from time to time.

The College runs a Magazine contributed to by students and Professors and edited by the staff.

*STATEMENT C.*  
*RETURN OF FINANCE.*

There is no regular provision for periodical renewal of apparatus, furniture, &c. The proprietor provides what he can afford. There is no regular provision for periodical additions to the Library. The Proprietor provides what he can afford. Most of the books have been paid for not from College funds but from the Proprietor's private purse.

A. This does not include fees from Law students. See below Note F.

B. There are two sources of income not entered here :

- (1) Sums paid by the Proprietor out of his private purse. These are not entered in the College Day Book unless they are paid through the office. It is therefore impossible to trace them all. Two items can however be traced.

Rs. 3605.5-6 paid to current expenses.  
Rs. 30,176.10-4 paid for the buildings  
and interest on the mortgage thereon.  
(2) Receipts from the School Depart-  
ment. These may be estimated at from  
Rs. 3,000 to Rs. 4,000 per annum.

C. These figures do not include sums paid to the Principal no is also Proprietor.

D. Books and apparatus bought from time to time by the principal and paid for out of his private purse, are not shown here. These figures only include current expenses of laboratory, purchase of text-books for library, repairs to apparatus and furniture some extent.

E. Office, servants, printing, contingencies, house rent up to 1903, and portion of interest on mortgage since then.  
F. This total does not include sums paid by the Proprietor.

of his private purse. Nor does it include expenditure on law department (eligible in excess of income). See note B. This total partly represents expenditure of fee-income and receipts from school department.

## BANGABASI COLLEGE.

*Note on its Finances drawn up for the University's Inspecting Commission.*

The statement submitted according to requisition is likely to mislead if not explained. We beg leave therefore to put in this explanatory note.

The College has always been a proprietary institution under private management. Treating it as his private concern, the Proprietor has never kept regular College accounts. A College Cash Book has been kept and that is all. It may be well to state what this Book shows and what it does not show.

It shows—

- (a) The total fee-income.
- (b) Sums paid in by the Proprietor to be paid out by the office for current expenditure.

It does not show—

- (a) The income derived from the School Department. This may be put down at about Rs. 3,000 to Rs. 4,000 per annum.
- (b) Sums paid by the Proprietor towards the expenses when these sums do not pass through the College Office.

These include—

- (1) Cost of books and apparatus.
- (2) Expenses incurred on the buildings.
- (3) Payments made to meet deficits.

It will be seen that the total fee-income for the 5 years 1900-05 was Rs. 91,203. To this should be added receipts from School Department. Taking these at the highest figure we obtain Rs. 20,000. The total income of the institution was thus not more than Rs. 1,11,203. The Law Department very nearly pays for itself. It has, however, never been a source of income. This year it is budgetted to incur a deficit of over 900 rupees. The actual loss last year was Rs. 934.

The total expenditure shown in the statement amounts to Rs. 104,698-2-3. To this should be added cost of books and apparatus, expenses incurred on the buildings, and payments made on other accounts by the Proprietor from his private purse, such as, the loss incurred on the College Hostel (about Rs. 1,000) and the cost of running the College Magazine.

A word as to the Buildings. Till 1902 the College rented a house in Bow Bazar. In 1903 the Proprietor purchased the present property, and built on it the School building to the right hand side of the gate. The College pays him no rent, but contributes something towards the interest due on the mortgage on the property. The amount already spent on the buildings amounts to over Rs. 30,000.

It will be seen that this institution at any rate can hardly be described as a profitable commercial investment for its Proprietor.

Four members of the College staff assist in the instruction of the School classes. In the Financial Statement C, the salary of one of them has been charged to the College, the salaries of two have been divided between School and College, and one half charged to the College : the fourth is the Proprietor.

Contingencies and establishment charges are not entered in the accounts separately for School and College. In the financial statement a portion of these, about  $\frac{3}{4}$  of the total, has been charged to the College.

The financial statement has been drawn up by me and the Proprietor has not checked the figures.

*September 25th, 1905.*

**ALBERT COLLEGE.***Statement by the Proprietor.*

To

**THE MEMBERS OF A COMMITTEE APPOINTED TO INSPECT THE  
CALCUTTA COLLEGES.**

**GENTLEMEN,**

Before the inspection of the Albert College is proceeded with, I, as proprietor of the Institution, on behalf of myself and my younger brothers, beg most respectfully to submit the following facts for your kind and indulgent consideration.

During the life-time of my father, the late Babu Krishna Bihari Sen, M.A., the Albert College and the Collegiate School attached to it were directly under his control. As Rector of the Institution, he devoted his whole time and energy towards its proper and efficient management and during the time that he was head of the Institution it attained a highly efficient standard in teaching and was financially in a prosperous condition. Since the death of my father in 1895, the management of the College was entrusted to a Committee, which at present consists of Sir Gooroo Dass Banerjee, the Rev. Kali Charan Banurji (Director), Dr. Rash Behari Ghose, Dr. P. K. Ray, the Hon'ble Mr. Justice Asutosh Mukerjee Babu Narendra Nath Sen, R. C. Dutt, Esq., B. L. Gupta, Esq., N. C. Bose, Esq., Satyendra Nath Tagore, Esq., Maharaj-Kumar Pradyot Kumar Tagore, Bahadur, Rai Trailokya Nath Banerjee, Bahadur the Hon'ble Mr. Nalin Bihari Sarkar, and other worthy gentlemen. The Committee took up the whole management of the Institution and I was recognised as, Proprietor on behalf of myself and my minor brothers. Babu D. B. Sett, who was a Professor in the College under my father, was then appointed by the Committee as the Principal and the Committee vested in him all the executive powers in the management of the College. The affairs of the College have since been under the sole control and management of the Principal, who only occasionally referred to the Committee such questions relating to the management of the Institution as he thought proper and expedient. As Proprietors, I and my brothers, were held responsible for all liabilities in connection with the College but had no voice in its management. Consequently we could not exercise any supervision over the management which was left entirely in the hands of the Principal.

It has now come to our knowledge, that the Principal has informed the Managing Committee that he has been taken ill suddenly and will not be able to attend the College on the day of inspection. On Saturday last he came to the College and after asking one of the Professors to take charge and so make up the arrears in accounts, he went away and wrote to one of the Members of the Managing Committee that he would not be able to attend the College for some time. On receipt of the information I myself with some of my

brothers hastened to the College, where we found everything in a hopelessly confused state. The accounts were all in arrears and there were signs of neglect and wilful remissness on the part of the Principal visible everywhere.

Within the very short time at our disposal we have done our best to bring up the arrears and to remedy the numerous defects that were capable of being so remedied. But we are afraid there are still many grave and serious irregularities to be found in connection with the management of the Institution for which the Principal is solely responsible and with regard to which it is beyond our power to offer any explanation.

Under the circumstances I respectfully beg that these irregularities may for the present be overlooked and that an opportunity may be given to me and my brothers to remedy them.

I beg to enclose herewith copy of a letter I have written to the Director of the College, the Rev. Kali Charan Banurji, requesting him to ask Babu D. B. Sett to resign at once and also to take necessary steps through the College Committee.

I remain,

Yours faithfully,

KUMUD BIHARI SEN,

*Proprietor, for self & Brothers.*

(TRUE COPY).

To

REV. KALI CHARAN BANURJI, M.A., B.L.

*Director, Albert College Committee.*

SIR,

I, as Proprietor, Albert College, beg most respectfully to bring to your kind notice, that although the College was in a very prosperous state, upon the death of my father, when the Executive Committee placed it under the management of Babu Dhanaballav Sett as its Principal, during the incumbency of the latter the status of the College has all these years been deteriorating day by day. The number of students and the income have lamentably decreased ; the Laboratory is in quite an unworkable condition ; most of the Library books have been lost and the furniture destroyed ; and the records are not to be found. It is all, I believe, due to sheer negligence on the apart of Babu Dhanaballav Sett.

With a view to save the Institution from certain ruin, it is desirable that the Principal should be asked to resign and the College should be placed under a better and more competent Principal.

I beg, therefore, you will kindly bring the matter before the Committee without delay and take the trouble of seeing that necessary arrangements may be duly made for the safety and preservation of the College.

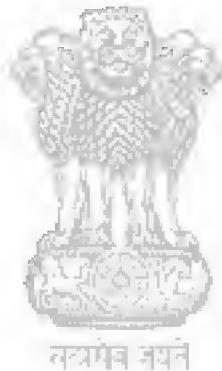

Yours faithfully,

KUMUD BIHARI SEN,

*Proprietor, for self and Brothers.*

## Albert college.

**Present  
Situation—**

**History—**

15, College Square.

The Albert Collegiate School was founded in 1872 by the great Indian Reformer late Babu Keshab Chander Sen with the object of imparting instructions to all boys irrespective of caste, creed and colour. Babu Krishna Bihari Sen, M.A., was the Rector. It was the aim of the Institution that the boys should receive a healthy training in ethics and hygiene in addition to intellectual education. In pursuance of this, a Band of Hope was organised for the purpose of raising up a number of young men who would take the pledge of teetotalism to combat with the vice of intemperance by their precepts and examples. A music class was likewise established with the help of Rajah Sir Sourindra Mohan Tagore and lessons were given twice a week. Instructions were also given by a competent physician in the laws of health in the light of recent advances in hygienic science, as adapted to life in this country.

In short it was a good all-round education which was always in view of the Institution.

In 1881 the College Department was opened teaching up to the F.A. standard. It was a self-supporting one from the beginning.

**Constitution  
and Manage-  
ment—**

After the death of Babu Krishna Bihari Sen in 1895, the management of the College was entrusted to a Committee consisting of Sir Gooroo Dass Banerjee, Kt., Rev. Kali Charan Banurji, Dr. Ras Bihary Ghosh, Babu Narendra Nath Sen, R. C. Dutt, Esq., Hon'ble Mr. Justice Asutosh Mukhopadhyay, Maharaj-Kumar Pradyot Kumar Tagore and other gentlemen. It was resolved by the Committee that the College should remain the property of the heirs of the late Babu Krishna Bihari Sen who should be answerable for all liabilities in connection therewith, but the Committee took up the whole management of the Institution and appointed Rev. K. C. Banurji as a Director, and Babu Dhana Ballav Sett as the Principal of the Institution with full powers of internal management.

The management is private. There is no College Council.

The members of the Managing Committee at the present time are:—

*President and Director*—Rev. Kali Charan Banurji.

*Members*—The Hon'ble Mr. Justice Asutosh Mukhopadhyay, Professor Binayendra Nath Sen, M.A., Professor Mohit Chandra Sen, M.A., Babu Pramatha Lal Sen, Secretary, and Babu Dhana Ballav Sett, Principal.

	<i>Proprietors</i> —Babu Kumud Bihar Sen, Proprietor for self and brothers. There are no Trustees.
<b>Teaching Staff—</b>	There are 9 Professors on the staff including the Principal and Lecturer in Sanitary Science. Two of the Professors give their services gratuitously.
	There are no special conditions governing the tenure of appointments and no pensions.
<b>College Buildings—</b>	The buildings are rented.
<b>Hostels—</b>	There is no hostel.
<b>Lodging Houses—</b>	There are no lodging houses for students.
